AI IN CONTENT CREATION & CREATOR ECONOMY

FINAL ASSESSMENT FRAMEWORK & RUBRICS • 2026

THREE ASSESSMENTS • EACH OUT OF 100 MARKS

This document covers the three assessments used in the 9-week course. Each assignment is recorded independently out of 100 marks; the three marks are not added into a single 100-mark total.

Assessment	Week	Submission format	Marks
1. Theory Knowledge Assessment	Week 3	Google Form questionnaire	100
2. Create an AI Advert for Any Brand of Choice	Week 6	Final advert video via Google Form	100
3. Create an AI Avatar of Self as Introduction	Week 9	Final introduction video via Google Form	100

ASSESSMENT 1 — THEORY KNOWLEDGE ASSESSMENT

Field	Details
Week	Week 3
Format	Google Form questionnaire
Maximum marks	100
Evaluation method	Evaluate the submitted answers against the correct answers and the marks assigned to each question.

Marking approach

Award marks for correct answers according to the question-level scoring. Calculate the student's total out of 100. Question-level answer key and mark allocation: use the actual Google Form/questionnaire settings.

ASSESSMENT 2 — CREATE AN AI ADVERT FOR ANY BRAND OF CHOICE

Submission: Final AI-generated advertisement video submitted through the designated Google Form.

Criterion	What is assessed	Marks
Creative concept and originality	A distinctive idea; avoids a generic or copied-feeling execution.	20
Brand/product communication	The brand/product is identifiable and its key appeal or message is clear.	20
Storytelling and structure	Coherent progression, suitable pacing, and a clear beginning/development/ending.	15
Visual quality and consistency	Intentional, appealing visuals; major continuity or generation errors do not distract.	15
Use and integration of AI	AI-generated elements are used purposefully and integrated into a coherent advert.	10
Audio, voice and music	Sound supports the advert; voice/dialogue and music are reasonably clear and balanced.	10
Editing and final delivery	Timing, cuts, titles and ending feel deliberate; video is complete and watchable.	10

TOTAL: 100 MARKS

ASSESSMENT 3 — CREATE AN AI AVATAR OF SELF AS INTRODUCTION

Submission: Final AI-avatar introduction video submitted through the designated Google Form.

Criterion	What is assessed	Marks
Avatar resemblance and presentation	Avatar is presented as the student's chosen digital self and suits a personal introduction.	20
Introduction content and clarity	The student introduces themself clearly and communicates relevant information understandably.	20
Delivery and communication	Speech, tone, pacing and presentation are appropriate and easy to follow.	15
Lip-sync and avatar motion	Lip-sync, facial movement and gestures are reasonably convincing and not repeatedly distracting.	15
Audio and intelligibility	Speech is audible and understandable, with manageable noise or distortion.	10
Visual quality and framing	Framing, background and image quality support a clear introduction.	10
Editing and final delivery	Video is complete, appropriately paced and presented as a finished submission.	10

TOTAL: 100 MARKS
